

## **District Advancement Plan: Social Studies Update**

At the November Board of Education meeting Mrs. Ally Canniff and Mrs. Julia Clark presented the Social Studies curriculum work completed over the summer and shared how that work is being implemented in the classrooms. This summer there was a close analysis of standards, content and themes. Unit overviews were developed and learning plans were created. You can learn more about specific units of study and see the entire [Social Studies Update presentation here](#) or you can visit the District Advancement Plan section of the Hebron Public Schools website. Grade level curriculum overviews will also be added to our website soon.

## **Spotlight On: Veterans Day Celebrations**

Hebron Elementary School honored our Veterans by holding a school-wide celebration. Veteran family members were invited to come to the school where they visited classrooms and answered questions from students. The students learned and sang military anthems at our assembly. The assembly was organized by the student council and was designed to teach fellow students about the different branches of the military. The PTA sponsored a luncheon for our Veterans to enjoy while they were visiting. Thank you to the Hebron PTA and the HES Climate Committee for all your hard work organizing this special day. Thank you to all our Veterans and active military members for the sacrifices you make for our country!
